Attachment A - Admission Policy for Deconcentration

A. The following is an extraction from the Housing Authority's Public Housing admissions and Continued Occupancy Policy concerning Deconcentration:

The Housing Authority shall endeavor to maintain across -section if income in its Public Housing communities by deconcentration of families with incomes below 30% of the area median income and make every effort to meet requirements for income mixing. The Housing Authority shall continually examine and maintain records that compare relative tenant incomes in each community to ensure deconcentration of poverty. Offers of housing for all new admissions will be made based upon the relative mix of the community's current.

The Housing Authority may offer incentives to eligible families to locate in certain communities within the Housing Authority that income mix does not meet the area median income. Additionally, the Housing Authority may utilize the practice of skipping a family's name on the waiting list when necessary to accomplish the necessary income mix when offering a specific unit in a public housing community. Such necessary skipping will be specifically documented in the resident's file and on the waiting list control.
